FOR TROOPS.

GOVERNOR ASKED

Correspondence Regarding the Idaho Mine Troubles Is Made Public.

WAR DEPARTMENT'S DEFENSE.

Adjutant General Corbin Informed the Miners' Representative

That the Request Had to Be Granted.

Washington, March 19.-The War Depart-

nent has supplied to the House Committee on Military Affairs, which is investigating

the Coeur d'Alene (Idaho) mining troubles,

the following correspondence on the sub-

"Boise, Idaho, April 29, 1889.—To the Fresident, Washington, D. C.: In pursuance

to the statute in such case made, I, Frank

Steunenburg, Governor of Idaho, the Legis-

lature not being in session, and it not be-

ing possible to convene it, do hereby apply

to the President of the United States to

call forth the military forces of the United

States to suppress insurrection in Shoshone

County, State of Idaho. This action is sus-

tained in the fact that all the available

Idaho National Guard volunteered for serv-

ice in the Philippines, and said county is in a state of insurrection. I am of the

opinion that at least 500 troops in the ag-

tachments should be ordered in as rapidly

"Washington, April 30, 1809.-Brigadier

General Merriam, Denver: The Governor

of Idaho reports an insurrection beyond

the power of the State to control in Sho-

shone County of that State. The Acting Secretary of War directs that you repair at

once to the capital of that State, and, after conference with the authorities there, you go to the seat of action, calling to

your aid such troops as may be most con-venient, regardless of department lines. De-partment commanders will be notified.

fice, Washington, Aug. 10, 1808-Mr. F. R. Bowden, President Grass Valley Miners' Union, Grass Valley, Cal.: Sir-Your tele-

gram to the President has been referred to

gram to the President has been referred to this office, and I am instructed by the Secretary of War to inform you that the presence of troops in Shoshone County, Idaho, is due to the request of the Governor of your State, who made requisition for same under warrant of law, April 29, 1839. * *

The Constitution and laws of the United States required the President to comply with this requisition, and any application for relief should be made to the Governor of Idaho, Very respectfully.

"H. C. CORBIN, "Adjutant General."

MINER ON THE STAND.

One Thousand Men, He Said, Were

Imprisoned.

Washington, March 19.- The cross-exam-

instion of Fred O. Martin, a miner, was

continued at the Coeur d'Alene investiga-

tion before the House Committee on Mili-

term before the House Committee on Mili-tary Affairs to-day. He was closely ques-tioned by Representatives Mondell and Dick as to his presence on the train which car-ried the riotous party to Wardner. He maintained that he was there by chance, and had no knowledge of or part in the at-tack on the mili.

and had no knowledge of or part in the attack on the mill.

He saw some armed and masked men, but the seriousness of the situation did not appear to him until after the mill was blown up. At one time, he said, an unknown man pinned a ribbon on his coat, but there was no explanation of its meaning. From a distance he saw the explosions, and afterwards saw one of the men (Shayne) lying shot on the road.

The cross-examination of Martin lasted throughout the day and was very rigid. It led to frequent sharp controversies between Representatives Lentz and Sulzer, on one hand, and Representatives Hull, Dick and Mondell, on the other, relative to the lines of inquiry. The witness maintained that he had no participation in the blowing up of the mining property, although the cross questions were directed to showing that he was familiar with many of the surrounding circumstances.

was familiar with many of the surrounding circumstances.

On re-direct examination by Mr. Lentz, the witness stated that, in all, about 1,000 union miners were taken from work in the mines and put in the bull-pen. He said the "permit system," under which no man was allowed to get work unless he held an official permit, was used to put nonunion men in the mines, and to drive union men out of the country. He said that at one time when he sought a permit he was told to apply to the Governor, 600 miles hway, at Boise.

The investigation will continue on Mon-

The investigation will continue on Mon-

JUDGE PHILLIPS BETTER.
